- Please outline all text or send us all fonts used
- Do not flatten artwork

Photoshop CC or lower

- Raster artwork must be at least 300 dpi
- Artwork must have editable layers
- Do not flatten artwork

Acceptable File Extensions

(.ai) (.eps) (.gif) (.pdf) (.tiff) (.png) (.psd)

Not Acceptable File Extensions

(.pub) (.xls) (.bmp) (.docx) (.doc)

• Templates

Other templates may be downloaded at mycardmarket.com/design-center

• **Logos or graphics provided must be a minimum of 300 dpi (for raster images), or vector artwork.** Many logos and graphics that are emailed or downloaded from the internet are too low resolution for printing (only 72 dpi).

• **Card Size / Bleed.** Please be sure the card is to size: W 3.375" x H 2.125". If the card has color or images running to the edge of the card, .125" bleed must be included, making the total card size W 3.625" x H 2.375".

• **Mag Stripes.** If the card has a mag stripe on the back, please note the mag stripe will sit 3/16" from the edge of the card (top or bottom, whichever works best for you). The mag is 5/16" tall and runs the width of the card.

PLEASE NOTE: The small area above or below the mag stripe must be left clear of ink for the imaging of the card number.

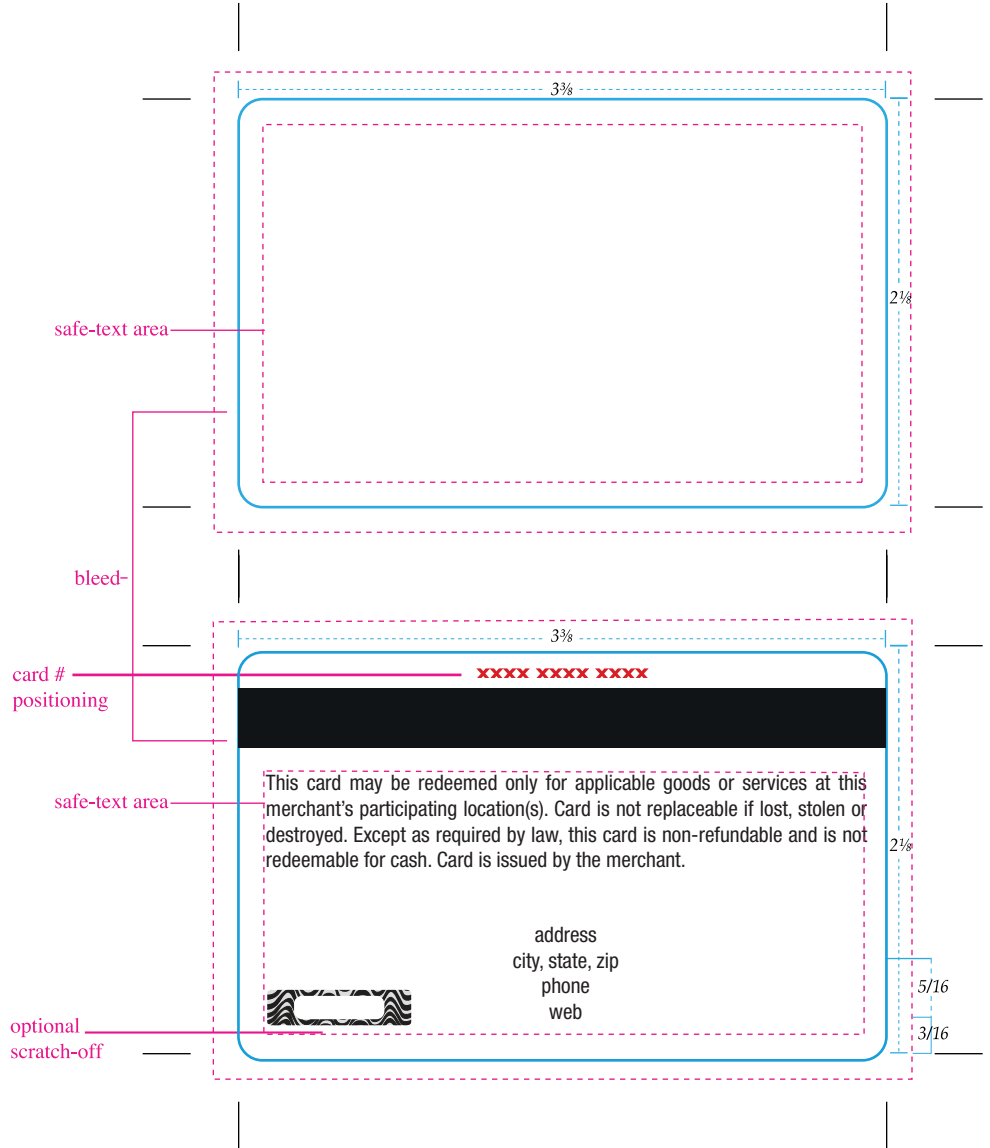

• **Submitting Artwork.** If your artwork is 5MB or less, you may email it directly to your Account Specialist.

If it's larger than 5MB, you may upload it to our FTP site via uploader.shopcardmarket.com using the login information below.
